CMA SUBCOMMITTEE on Educational Courses and Professional Development initiative

The Commonwealth Medical Association is pleased to establish a subcommittee to advance, advocate for, and promote the CMA Educational Courses and Professional Development initiative to benefit the medical fraternity and young medicos across the Commonwealth. This subcommittee will develop strategies that promote the short-term structured courses offered through our educational partner Medisys and other CMA platforms. Additionally, the subcommittee will collaborate with various stakeholders to ensure that these courses meet the evolving needs of healthcare professionals. By fostering a culture of continuous learning, we aim to enhance the skills and knowledge of practitioners, ultimately improving patient care across the Commonwealth.

I request that the Chairman and Convenor organize a Zoom meeting with all members to formulate a roadmap for this broader mission. Please make sure to notify all executive members about the Zoom meeting, as their support is crucial. CMA is dedicated to enhancing our collaboration with all affiliated organizations to empower one another. We must consolidate our efforts to confront these difficulties directly for the benefit of our community. Collectively, we can attain significant advancements and protect the welfare of those in need.
